Dear Recruiting Team,

I am writing to express my interest in your posts As Your Staff/Officer, as advertised on the internet. I attach my curriculum vitae and resume. Currently I have completed my bachelor's degree in Informatics Engineering at Sanata Dharma University. While I have a comprehensive background in IT, Website Developer, and Computing, I am also interested in other fields, such as networking, and server management. Apart from that I also like something related to art and social. Therefore, I actively participated in many workshops and seminars during my studies to cultivate new skills and knowledge. I believe that my educational background and skills would be a very good match for the Staff/Officer position.

Apart from my academic background, I also want to make a meaningful contribution to several organizations, One of which is the University Student Executive Board, where I served as KPU for the equipment section, and the Event Committee at the ITDays event for 2 periods. This position has provided me with experience in leading and coordinating organizations. Furthermore, I have gained extensive experience in websites because I worked at GKSteak as IT Support & Aruna Picture as Website Developer Until March 2022, then I continued to work at PT KOMURI Geekgarden as Laravel Fullstack and WordPress Developer until now. Besides that, I also work on several projects that are written on my CV. Not only I learned about IT, and Websites but also partnership procedures as is often done in my current workplace to collaborate with multiple clients for specific events or products

I am excited to transfer my educational and organizational experience to a more professional one such a position has provided me with excellent preparation for the demands of the Staff/Officers in this company. Thank you for your time and consideration. I have attached my resume and am looking forward to meeting with you and discussing the opportunity in more detail. I can be contacted by telephone at (+62)811-290-2953 or email at w@widifirmaan.web.id. Thank you and Godbless.

Yours faithfully,
Widi Firmansyah
